First words of the bible in hebrew

I work closely (week to week) with about a dozen different writers each year and part of our process is very deep a bible character for any character who makes a significant appearance in the story. This process works like this:1. Label the greatest failures and successes in your character's life up to the point at which they enter the story (because they relate to the main issues we all face: love, money, family, sex, drugs, art, art, achievement, education, career)2. Using the narrative approach, describe each other's events and each of the failures and successes.3. When you have 20 pages per character, summarize the main WINNINGS and SCARs of each character on one page. This work product is your Bible: contract you with your character that you will write them true to their own life story. Throughout the world of your story, your characters are aware of the greatest moments of their past to repeat glory, and run from their biggest failure to avoid pain. Great stories arise from circumstances where fear needs to combat desire and one has to win at another cost. For example:SamanthaGreatest Failure: Dropped out of school. Narrative description: When Samantha was in grade 7 her mother was killed in a hit-and-run car accident. Samantha is the oldest of four children and because her father was drunk, she had to go and identify the remains of her pearl mother. When he returned home, something clicked in him and he realized that with his father as inability as he was a new head of household. He forged his age and immediately got a job at a local restaurant where he went every day after he sent his three siblings to school. For the next two years, she works her tail to keep food on the table. Then his father took a few pills in a drunken supor and never woke up. From there he raised his game to a higher level, stepped into corporate jobs with the main theme park and took the full role of the guardian. His siblings are a great personal joy for him, but every day at work, he secretly worries that a lack of degree will someday be discovered and send his life and their stability falls down the steep hillside. Greatest success: The Employee's Annual Description: In her fifth year working with the theme park she was promoted to management position, and was responsible for the event hosting 30,000 guests in the park. She had to manage entertainment (leading young singer), catering (more than 300 staff), and a relationship with a very selector customer who wanted everything to be done perfectly. The success of the event The theme park is a series of very lucrative contracts for the next three years that generate an annual \$3 million dollar supplement and gets employees duly awarded this year, a job he competes against thousands of others to win. To him it means that he can actually anything he sets his mind to; that he deserves, and regardless of his lack of education, he has a place in this world and can compete with anyone, and take care of his family. Note that his biggest failure and his greatest success in the area are the same two sides of the coin. This is by design. (Imagine 10-20 pages written this way that highlights both sides of the coin for it as it relates to love, sex, money, family, etc.) Now that you've outlined how important his status has become to him, imagine if his secrets were threatened by other characters with equally strong fear and desire. How might he behave to protect his secrets? As you can imagine, this kind of job of making final writing chapter is quite simple because the characters have their own agenda that you've carefully built. I love to raise children and then push them out of the nest. You hope you have raised them well, but ultimately, they will make their own mistakes and be accountable to the consequences because they learn how to live and behave and steer their world. Spend your time doing homework like this before writing loans to a very strong interaction between the characters, like some balls left loose in a pinball machine. They ricochet off each other and it's hard to control, which reflects life. It's nice to write! Word games are an excellent way for kids to improve their vocabulary and spelling while having fun. From word searches to crossword quizzes and trivia to jigsaw puzzles, there are some great activities for all ages. We've unclothed the web for some of the best puzzles that focus on various Bible themes. Some can be played online and others are printed to make great Sunday School activities.
